Gentlemen

Enclosed for your review and comment is a copy of the Draft RCRA Facilities Investigation/Remedial Investigation (RFI/RI) Report for Operable Unit (OU) 11, West Spray Field. Also enclosed is a combined response to comments on the Draft Letter Report - Colorado Department of Public Health and Environment Source Area Delineation and Risk-Based Screen, and Environmental Protection Agency Area of Concern Delineation. Due to some miscommunication with the Department of Energy (DOE) Subcontractor preparing the RFI/RI report, a comparison discussion with Applicable or Relevant and Appropriate Requirements (ARARs) is not included. However discussion on this issue is included in the response to comments. This discussion and a small description of the ARARs comparison will be included in the revised Letter Report section in the Final RFI/RI Report.

Submission of the Draft RFI/RI Report meets one of the requirements listed in Table 6 of the Interagency Agreement. DOE requests a timely review, with any recommendations, comments, or responses due back to us by May 18, 1995. If you have any comments or any other specific questions, please call Dave George, the DOE OU 11 Project Manager at 966-5669.

Sincerely,

Steven W Slaten  
IAG Project Coordinator
